<b><u>NAME AND PART NO.</u></b>	<b><u>REPLACEMENT FOR</u></b>	<b><u>DESIGN DATA</u></b>	<b><u>ELIGIBILITY</u></b>

NOTE: The procedures that have been accepted by the type certificate or TSOA holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type certificated products, are also acceptable for incorporating the same minor changes on identical FAA-PMA replacement parts. The FAA-PMA holder shall be able to show traceability relating to the TC, STC, or TSOA holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract or termination of the Identity per 14 CFR 21.303 licensing agreement, all subsequent design changes to the PMA must be submitted in a manner as determined by the ACO. Major changes (Reference 14 CFR Part 21 §§ 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original FAA-PMA.
