<u>Part Name</u>	<u>Part Number</u>	<u>Approved Replacement For Part No.</u>	<u>Approval Basis and Approved Design Data</u>	<u>Make Eligibility</u>	<u>Model Eligibility</u>
Lens	SW43848	SW43848	Identity per 14 CFR § 21.303, licensing agreement between Electro-Mech Components, Inc. and Boeing Commercial Airplane Group. File # 6-5900-09-FDSH-15442 dated 09/21/2009 or later FAA approved revision.	Boeing	727-200 Series, 747-400 Series, 767-300 Series, 777-300 Series

-----End of Listing-----

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement parts. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA parts must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR § 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.
