ELECTRO-MECH
COMPONENTS

September 14, 2020

Electro-Mech Components manufactures pushbutton switches, indicator lights, pushbutton lenses and multi-station interlocking switch assemblies for OEM front panel switching applications.

The raw materials used in the fabrication and assembly of our products are only present in a *de minimus* amount.

Below is our RoHS statement on Lead and other related materials:

The following substances are covered by this compliance statement:

Lead	0.1% of weight	1000mg/kg	1000ppm
Mercury (Hg)	0.1% of weight	1000mg/kg	1000ppm
Cadmium (Cd)	0.01% of weight	100mg/kg	100ppm
Hexavalent Chromium (CrVI)	0.1% of weight	1000mg/kg	1000ppm
Polybrominated Biphenyls (PBB)	0.1% of weight	1000mg/kg	1000ppm
Polybrominated Diphenyl Ethers (PBDE)	0.1% of weight	1000mg/kg	1000ppm
Bis(2-ethylhexyl) phthalate (DEHP)	0.1% of weight	1000mg/kg	1000ppm
Butyl benzyl phthalate (BBP)	0.1% of weight	1000mg/kg	1000ppm
Dibutyl phthalate (DBP)	0.1% of weight	1000mg/kg	1000ppm
Diisobutyl phthalate (DIBP)	0.1% of weight	1000mg/kg	1000ppm
+ other listed substances			

The substances listed above do not exceed the maximum concentration limits stated above in all Electro-Mech products as of RoHS 3 (EU 2015/863) dated 07/22/2019. A product is defined as RoHS compliant if the lead, mercury, hexavalent chromium, PBDE and PBS content in the homogenous materials of the products do not exceed the concentration limits stated above.

Electro-Mech Components is confident that our testing capabilities and commitment to continuous improvements in product reliability and performance will ensure that EMC is in full compliance of the RoHS directive.
